A different experience

*Over thirty seven years experience in manufacturing motor caravans, combined with a most comprehensive market research programme, has resulted in the Volkswagen range of Auto-Sleeper motor caravans. Whilst retaining the traditional skills of Cotswold craftsmen with the attention to detail for which our Company is renowned, the Trident, Trooper, Topaz, Clubman and Medallion set the standard for others to follow. Colour co-ordinated fabrics, quality soft furnishings and hand crafted cabinet work provide an ambience for which Auto-Sleepers are justly proud. Indeed, our Volkswagen motor caravans are unique in and luxuries of home,  combining the comfort of a family car. Auto-Sleepers are the only manufacturer of motor caravans to have won four gold medals in International Coachwork competitions, the much coveted Motor Caravan of the Year Award and, on no less than seven separate occasions, the Caravan Industry Awards for motor caravans - an accolade of which we are justifiably most proud. Auto-Sleepers and Volkswagen who together have been producing motor caravans for well over a decade, proudly present their latest range of motor caravans - each an investment and an undoubted leader in its class.*

*Comfort and flexibility is the hallmark of the Trident - a superbly equipped motor caravan combining quality and attention to detail - a model second to none.*

**Sumptuous Interior.** The sumptuous interior features a kitchen with stainless steel sink and two burner cooker/grill, each fitted with heat resistant laminated lids. Complementing this is the Electrolux gas/12v/230v refrigerator with electronic ignition and freezer compartment. Adjacent to the refrigerator is a large storage cupboard housing crockery for four, below which is the chemical toilet.

**Practical Design.** Practical features abound. The interior layout has been designed to provide maximum floor space. At the front of the high-top roof is a large storage locker; so useful for those bulky items. Roller blinds and flyscreens

# Trident

fitted to all caravan windows provide privacy when required.

*Luxurious Living.* The luxurious dinette allows you to relax or dine in comfort. Further versatility may be achieved by the swivelling passenger seat which, with the offset table, provides an additional dinette. At night the rear dinette converts, in one easy action, to a comfortable double bed. An optional bed, suitable for children, is situated in the high-top roof. This may also be converted into a large storage locker.

Lined curtains, specially selected seat fabrics with fire retardant foams, together with handcrafted edging on all cabinet work adds that final touch

of luxury. For those requiring that little extra comfort, a water heater and luxury pack which includes thermostatically controlled blown air heating and second battery with charging system, are available as options.

*Highest Level of Specification.* This superb model includes carpeting throughout, three point lap and diagonal inertia reel seat belts in the rear and a radio cassette. Externally the Trident is equally eye catching with its contrasting coachlines, heated rear window with wash-wipe, wheel trims and stainless steel roof rack. A model second to none, no less.

*Stylish and versatile, the Trooper offers a combination of practicality with Auto-Sleepers legendary craftsmanship. Compact and with a superb specification, the Trooper lacks for little.*

**Practical Versatility.** With either a solid sided or low profile fabric elevating roof, the Trooper combines the high level of specification of the Trident with the versatility and compactness of a multi purpose vehicle.

**Lavishly Equipped.** The luxury and comfort of this model begins in the driving compartment where the cab seats and headrests are trimmed to match the rear seat cushions. To the rear, the kitchen features an Electrolux gas/12v/230v refrigerator fitted with electronic ignition and freezer compartment. Protection is provided, when using the mains electric hook-up, by the residual current device. The matching stainless steel sink and two burner cooker/grill are fitted with heat resistant laminated lids. Roller type blinds and flyscreens are fitted to all lower

# Trooper

caravan windows affording privacy when required.

**Living in Comfort.** The rear dinette seats two in comfort. Further versatility is achieved by swivelling the cab seat which, in conjunction with the offset table, provides an additional dinette. At the rear is the dual access wardrobe, this being from either within or the rear of the vehicle. At night the dinette quickly converts to a comfortable double bed. As an option, a further bed, suitable for children, is available in the roof.

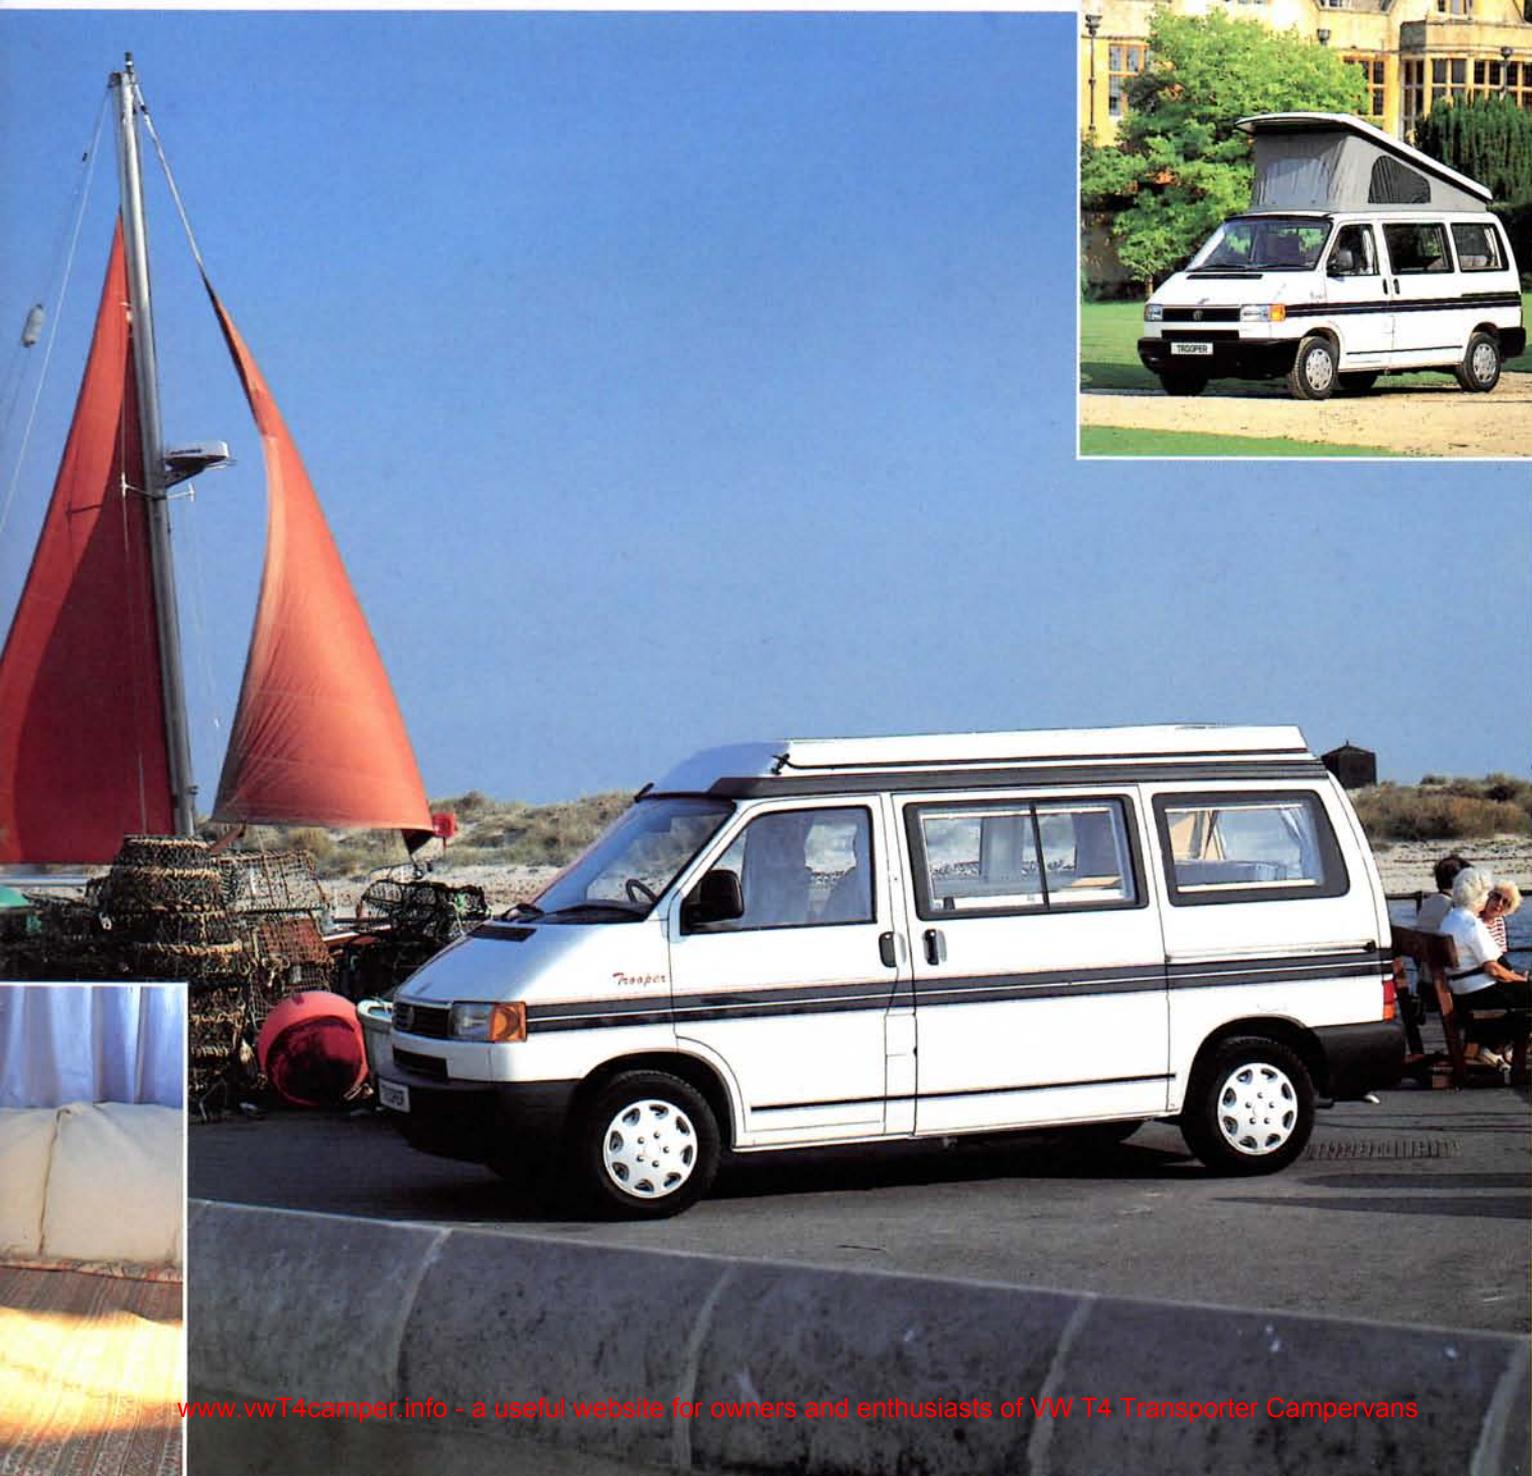

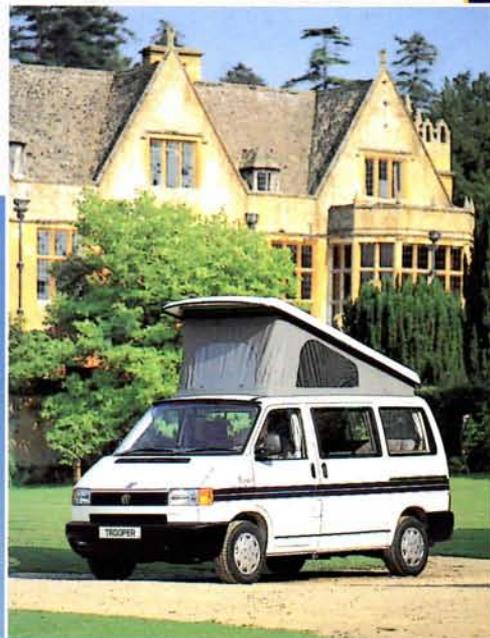

**Superb Specification.** A comprehensively equipped electrical control panel incorporates master switches for the 12 volt lighting and water pump circuits, individual fuses for each appliance and a water level indicator. Crockery

for four is fitted as standard - conveniently positioned beneath the sink in its own special rack. A chemical toilet, three point lap and diagonal inertia reel seat belts and radio cassette are fitted as standard. For those that seek that little extra, a Carver Rapide water heater and luxury pack which includes a second battery with charging system and thermostatically controlled blown air heating are available as options.

**Complete Package.** The Auto-Sleeper Trooper offers the ideal combination - a perfectly planned, fitted and equipped interior, based upon Volkswagen's prestigious engineering. The ever versatile Trooper leaves little to be desired.

LOW PROFILE TROOPER

*Topaz combines all you could wish for - quality, ambience and bespoke Cotswold craftsmanship, plus a specification that leaves little to be desired.*

**For the Connoisseur.** The Topaz boasts a specification that is, quite simply, second to none. Designed primarily as a two berth, the Topaz combines all that you could wish for - quality, ambience and, of course, the bespoke Cotswold craftsmanship for which Auto-Sleepers is justifiably renowned.

**A Warm and Welcoming Interior.** Colour coordinated fabrics, buttoned cushions and lined curtains set the scene for comfort. Swivelling cab seats add further to the versatility; additionally two dinettes may be formed, one with the passenger cab seat reversed, a second utilising the inward facing settee. With cassette blinds and fly screens, a roof light with night blind and fly screen, you will see the Topaz lacks for nothing. Reading lights, two 12 volt fluorescent

# Topaz

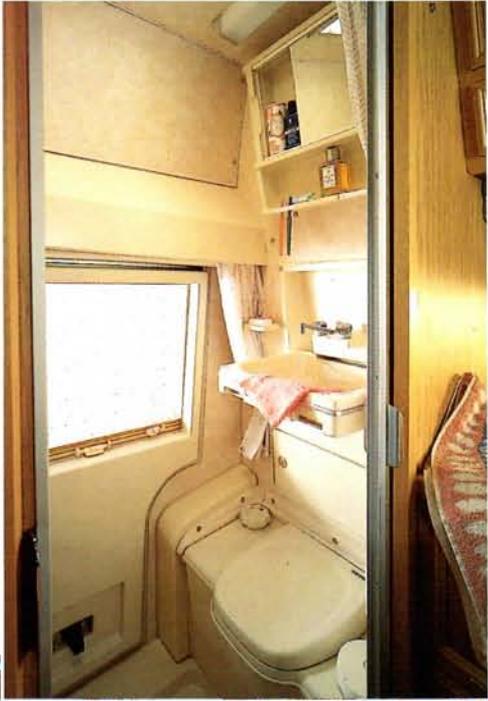

lights and a mains light, complete the comprehensive specification.

**Luxurious Kitchen.** By virtue of the ingenious design, neither the dinette seats nor, at night, the beds, intrude into the kitchen area. On the offside there is a tilt-tolerant Electrolux RM4213 refrigerator, adjacent to which is a slide out storage locker; above is a matching stainless steel sink and drainer. Hot and cold water is provided for both the sink and shower by the water heater designed for use with gas or mains electricity. On the opposite side there is a two burner cooker/grill with electronic ignition, and yet more storage space.

**Shower Compartment.** At the rear, accessible from both inside and out, so useful when coming

off the beach, is the shower compartment. As will be expected in a vehicle of this class, the Thetford cassette toilet is complemented by a drop down washbasin, mirror and multi positioned roof light with fly screen.

**A Little Gem.** As its name suggests, the Topaz is a little gem. Equipped as standard with a charging system, second battery, thermostatically controlled blown air heating - even a waste water tank - the Topaz is arguably the most comprehensively equipped model in its class. With colour co-ordinated coachlines, stylish and most practical rain gutters, and combining the renowned quality of Volkswagen with the innovative skills of Auto-Sleepers, the Topaz is surely the Jewel in the Crown.

*The Clubman epitomises the luxury and craftsmanship for which Auto-Sleepers is justifiably renowned. Stylish, compact and elegant, this model is a rare combination of good looks and design.*

**Sumptuous Interior.** The interior spells luxury - a combination of innovation and traditional Cotswold craftsmanship. This is a vehicle with an ambience of warmth and quality with all the luxuries of home. The furniture, with polished hardwood beading, blends softly with the lined floral curtains and colour co-ordinated materials.

**Luxurious Specification.** Built to the highest standards, every effort has been made to ensure total comfort and ease of living. The water heater, with mains hook-up facility, gives a generous supply of hot water to both the sink, shower and handbasin. Fluorescent and reading lights, combined with the mains light, battery charger and radio cassette, provide all the luxuries of home. Fully carpeted throughout, the Clubman

# Clubman

boasts double-glazed acrylic windows, cassette blinds and flyscreens, and even scatter cushions.

**Five Star Kitchen.** Situated at the rear, the kitchen has a cooker with grill and oven below, adjacent to which is a stainless steel sink and drainer, hot water being supplied by the Carver Rapide gas/12v/230v water heater. The practical design of the Clubman allows the cooker and sink to be closed away out of sight when not in use. To complement this high level of specification is the tilt-tolerant Electrolux RM4213 gas/12v/230v refrigerator fitted with electronic ignition and freezer compartment. To complete the five star specification, there is crockery for four in a fitted cupboard.

**Ultimate Specification.** At night, comfort is assured with a choice of two single or a large double bed. Alternatively, a large transverse double can be quickly and easily made. Storage space abounds in the roof lockers, bed boxes, cupboards and drawers. A further luxurious touch is a shower compartment fitted with a top-hinged acrylic window, cassette toilet, vanity unit and drop-down handbasin - ducted heating and a large dressing mirror adds the final touch.

**Assured Comfort.** In the Clubman you will keep both warm in winter and cool in summer. The Carver 3600-STC space heater is fitted with a Fanmaster mains heating element with ducting to both the vehicle interior and the shower. Outside, you will find a stainless steel roof rack,

ladder and rear bumper, together with a separate locker for two 7kg gas bottles. The Clubman is arguably one of the best looking coachbuilt motor caravans available today - built for those who seek only the very best.

*Elegant and stylish, the Medallion sets the standard for others to follow, having already been chosen as the outright winner of the Caravan Club's Motor Caravan Design Award.*

**Close to Perfection.** Take a step inside and you will see that the Medallion is no ordinary motor caravan - you enter a world of luxury and style where beautifully crafted furniture, with folded, hand polished, hardwood edging is matched to fabrics and materials of the highest quality. From the soft feel roof lining to the cavernous underseat storage, the Medallion defies belief; indeed wherever you look, you will see this model is built for the connoisseur. Quite simply, the Medallion has it all.

**True Comfort.** Both the offside settee and dinette area allow relaxation not hitherto experienced. Sprung foam cushions, designed for total relaxation, are complemented by colour co-ordinated lined curtains - indeed the soft subdued fabrics and peaceful ambience make the Medallion a real home from home. Top hinged double glazed acrylic windows afford panoramic views with comfort assured by roller blinds and flyscreens. Extensive lighting is fitted throughout - bullseye reading lights

# Medallion

and twin tube fluorescent lights will meet every need. Stereophonic rear speakers, a television socket, and light switches for both the fluorescent and mains light that fall easily to hand whilst in bed, make the Medallion close to perfection.

**Haute Cuisine.** A claim not said lightly, since the Medallion boasts a kitchen second to none. At the rear, well away from the living area, is a four burner hob, grill and oven, each with electronic ignition and, of course, flame failure. Adjacent is the polished stainless steel sink, drainer and hardwood chopping board - complemented by a cocktail cabinet, chinaware and glasses for four. The Carver Rapide gas/12v/230v water heater provides a ready supply of hot water and the luxurious kitchen includes a tilt tolerant refrigerator, slide out cutlery tray and a top hinged window, all of which make cooking a pleasure.

**Exquisite Shower.** The shower, finished in light blue and soft white, is both roomy and offers every facility you may need. Opposite the Thetford cassette toilet is a matching wash basin with cupboards below and dressing mirror above. A blind and flyscreen afford privacy when using this compartment as a changing area. For showering, the full length shower curtain and ducted warm air heating from the Carver 3600-STC, with the Fanmaster mains heating element, gives you levels of comfort not previously experienced.

**A Winner.** As its name suggests, the Medallion is surely a winner. Its stunning good looks are yet further enhanced by the stainless steel roof rack and ladder, colour co-ordinated bumpers and an external storage locker. Stand back and admire the Medallion - not only will you be investing in a winner but you will surely be the envy of your friends.

 Width, mirrors extended 2190mm (7'2 1/4")

BED SIZES: Single bed (Nearside) Length 1850mm (6'1")  
 Width 530mm (1'9"). Single bed (Offside) 1850mm  
 6'1") Width 590mm (1'11"). Double bed Length  
 1850mm (6'1") Width 1465mm (4'10"). Optional  
 Overcab bed Length 1770mm (5'9") Width 1130mm  
 (3'6").

# Technically Advanced

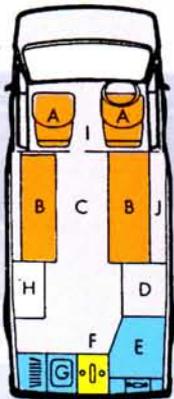

## CLUBMAN

- A** Fully adjustable cab seats.
- B** Dinette converts to two longitudinal single beds, or, with C, a transverse double.
- C** Table.
- D** Wardrobe with thermostatically controlled heater below.
- E** Shower/toilet compartment.
- F** Two burner grill/cooker with oven below.
- G** Stainless steel sink and drainer with cupboard below.
- H** Refrigerator with freezer compartment and cocktail cabinet above.
- I** Cut away cab with storage lockers.
- J** External gas storage.

Height 2770mm (9'1"), Length 5320mm (17'6")  
 Width, mirrors folded 2170mm (7'1½")  
 Width, mirrors extended 2420mm (7'11")

BED SIZES: Double bed Length 1995mm (6'6")  
 Width 1321mm (4'4"). Single Bed (Offside) Length 1995mm (6'6"), Width 686mm (2'3"). Single Bed (Nearside) Length 1995mm (6'6"), Width 686mm (2'3"). Optional Overcab Bed Length 1726mm (5'8"), Width 1092mm (3'7").

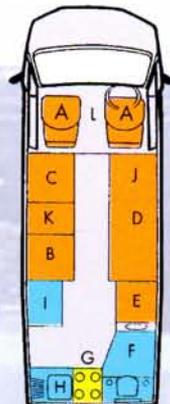

## MEDALLION

- A** Fully adjustable cab seats.
- B** Forward facing seat.
- C** Rear facing seat. B & C convert to form longitudinal single bed.
- D** Inward facing seat forms a longitudinal single bed. B, C, & D combine to form a transverse double bed.
- E** Wardrobe with thermostatically controlled heater and fanmaster below.
- F** Shower/toilet compartment.
- G** Four burner hob with cooker, grill and oven below.
- H** Stainless steel sink and drainer with cupboard below and lockers above.
- I** Tilt tolerant refrigerator with cocktail cabinet above.
- J** Gas storage.
- K** Table.
- L** Cut away cab with storage locker or optional bed.

Height 2890mm (9'5¾"), Length 6155mm (20'2¼")  
 Width, mirrors folded 2230mm (7'3¾")  
 Width, mirrors extended 2670mm (8'9¼")

BED SIZES: Double bed Length 1890mm (6'2¾"), Width 2020mm (6'7½"). Single Bed (Nearside) Length 1890mm (6'2¾"/8"), Width 820mm (2'8¼")  
 Single Bed (Offside) Length 1890mm (6'2¾"/8"), Width 790mm (2'7"). Optional Overcab Bed Length 1110mm (3'7½"), Width 1780mm (5'10¾")

The Transporter leads the field amongst commercial vehicles in having independent suspension front and rear. The compact front suspension uses double wishbones and torsion springs together with short shock absorbers so that none of the components project into the footwell area. At the rear, diagonal trailing arms and coil springs are used. Again, a compact arrangement has been achieved by mounting the shock absorbers below the floor.

The rack and pinion steering is connected to the steering columns via universal joints and collapsible struts.

Disc brakes are used at the front and drum brakes at the rear. Ventilated discs are used on all models, and a dual circuit system with load sensing valve ensures that the correct brake pressure is applied over varying load conditions.

Extensive anti-corrosion treatments are applied during manufacture including dip-degreasing, zinc phosphating and cathodic priming. In addition cavities are flooded with hot wax as a further protection against rust.

There are five engine options each specially developed to provide excellent torque and economical fuel consumption. Each is transversely mounted at the front where all routine checks are located at the top of the engine compartment. Whichever engine you choose a 5 speed gearbox will take the drive smoothly to the front wheels; certain models are available with automatic transmission

4 cylinder 2.0 litre petrol engine.

Output: 62kw (84bhp) at 4300rpm.

Max torque: 159Nm at 2200rpm.

5 cylinder 2.5 litre petrol engine.

Output: 85kw (114bhp) at 4500rpm.

Max torque: 190Nm at 2200rpm.

4 cylinder 1.9 litre turbo charged diesel engine.

Output: 50kw (68bhp) at 3700rpm.

Max torque: 140Nm at 2000-3000rpm.

5 cylinder 2.4 litre diesel engine.

Output: 55kw (75bhp) at 3700rpm.

Max torque: 164Nm at 1800-2200rpm.

5 cylinder 2.5 litre TDI diesel engine.

Output: 75kw (102bhp) at 3500rpm.

Max torque: 250Nm at 1900-2300rpm.

The Trident and Trooper are available with any of the above engines. The Clubman and Topaz with either the 4 cylinder 2.0 litre petrol, 5 cylinder 2.4 litre diesel engine, the 2.5 litre TDI diesel engine or the 2.5 litre petrol engine.

Power assisted steering is standard on all models. The comprehensive specification of the Topaz, Trooper and Trident is further enhanced with a heated rear window incorporating a wash/wipe facility.

All Auto-Sleeper models carry the Volkswagen twelve months unlimited mileage mechanical and paintwork warranty; the mechanical element can be extended up to 24 months. Additionally, Volkswagen provide a six year anti-perforation warranty on their bodywork, and offer extended cover for up to 24 months at very competitive rates.

The Trident, Trooper, Topaz, Clubman and Medallion conform to the SMMT/NCC Motor Caravan Code of Practice 201 for Habitation Requirements Relating to Health and Safety.

### VOLKSWAGEN SUPPORT WARRANTY

There is a 12 month unlimited mileage mechanical warranty on all Volkswagen commercial vehicles.

For total peace of mind, your Volkswagen Van Centre can offer very competitive rates for extended warranty. Additional 12 month or 24 month warranty schemes are available at extra cost.

TRIDENT · TROOPER · TOPAZ · CLUBMAN · MEDALLION

Volkswagen also promote Volkswagen Emergency Assistance. Every Volkswagen is automatically covered in this scheme for the first 12 months.

The scheme provides a range of benefits including roadside assistance anywhere in the UK, 'At Home' breakdown service, recovery to your nearest authorised Volkswagen dealer, 24 hour cover and the option of overnight hotel accommodation or onward travel in the event of a breakdown, whichever is more suitable. Full details of the scheme are available from your Volkswagen Van Centre.

**Auto-Sleepers**

Auto-Sleepers Limited, Orchard Works, Willersey, Nr Broadway, Worcestershire WR12 7QF, England. Tel: 01386 853338 Fax: 01386 858343

A COMPANY COMMITTED TO EXCELLENCE

It is the continual policy of Volkswagen and Auto-Sleepers to seek to improve their vehicles in every way and so whilst the details set out in this brochure were correct at the time of going to press, they are unable to guarantee that no changes in specification have subsequently taken place. They therefore reserve their rights to alter the specifications and price at any time without notice. Auto-Sleepers design their motorcaravans to provide a variety of potential uses for its customers. Each vehicle features the optimum storage, fluid, seating and sleeping capabilities. While the customer enjoys this potential, he also has the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities.
